DON'T BE BALD

Here's a Good Way to Stop Loss of Hair and Start New Hair Growth

If the hair root is absolutely dead, permanent baldness will be your lot, and you might as well cheer up as to bemoan your fate. If your hair is falling or thinning out, don't wait another day, but go to the Red Cross Pharmacy and get a bottle of Parisian Saze, the truly efficient hair grower.

Don't say, "It's the same old story; I've heard it before," but try a bottle at your risk. They guarantee Parisian Saze to grow hair, to stop falling hair, to cure dandruff and stop scalp itch, or money back.

Parisian Saze contains just the elements needed to properly invigorate and nourish the hair roots. It's a prime favorite with discriminating ladies, because it makes the hair soft, bright, and appear twice as abundant. It is antiseptic, killing the odors that are bound to arise from excretions of the scalp and, as everyone knows, sage is excellent for the hair and scalp.

Parisian Saze is inexpensive and easily obtainable at drug and toilet counters everywhere.—Adv.

A chain letter scheme was in full swing in town last week, and a goodly number of people wrote five letters and sent to friends and also sent ten cents to the National Mail Order Exchange at 520 Globe building, Minneapolis, Minn., who advertised to send a silk petticoat worth at retail, \$4.50, if directions were followed and the letters to friends sent the same day. Word was telephoned from Northfield on Friday that the thing was a fake and on Saturday this was confirmed by an item in the Free Press stating the pretended manager of the exchange was a fugitive from justice, after having swindled a large number of people in the northwestern states. Those who placed their return card on their envelopes will now have them returned from the Minneapolis postoffice, but those who did not will have to wait till they are returned from the dead letter office at Washington. AMUSEMENT NOTES.

"The Blue Paradise" Was Well Received in Rutland.

The Rutland Herald of Saturday, Oct. 21, had the following to say of "The Blue Paradise," which comes to the Barre opera house Tuesday evening, Oct. 24:

With the haunting music of "Auf Wiedersehen" in their ears and the impression of one of the slightest combinations of handsome costumes, beautiful women and romantic atmosphere in their minds, the largest audience of the season greeted "The Blue Paradise" at the Playhouse last night.

This "musical play" has a true comic opera flavor, and its chief number has all the virtues of previous Viennese successes and some of its own. Furthermore, it was staged and costumed in a fashion that sets the standard for traveling companies high.

One is tempted to mention the chorus first, for a finer aggregation of real show girls has never been seen in the city. They sang well, danced well and wore their clothes well. Without them, even the efforts of the little prima donna, Yolande Pressburg, and the favorite comedian-hero, Paul Nicholson, would have lost some of their effect. The "dream girl" enchanted her hearers with a pretty singing voice and a most fetching manner, while Mr. Nicholson is so much a feature of our theatrical seasons that we should miss him either in "A Pair of Sixties" or as he is.

Some extremely good low comedy was done by Robert Allen as the unfortunate banker who finds the "Auf Wiedersehen" girl a virago, Miss Morton, another familiar figure, was excellent as the transplanted telephone girl, and Charles Derickson as "Rody" was as nifty a juvenile as the matinee girls are apt to see for several months.

Special mention should be made of the classic dance by Steve and Lovejoy, with its suggestions of the "Ballet Russe" and the "Big Show," and altogether, the piece was excellently conceived, well dressed and beautifully produced.—adv.

NORWICH UNIVERSITY

Greatest Enrollment Now in History of the Institution.

The statistician at Norwich university has been busy and has discovered that Norwich has broken a great many records for this year's entering class and total enrollment; for instance, the total enrollment is the largest in the history of the college. The freshman class is also the largest enrolled in the history of the institution. The university has also broken all records in the number of upper classmen who have returned this year. The highest percentage of which there is any record in the past years was 74.4 per cent. This year 84.8 per cent. of the upper classmen have returned. This record applies not only to the junior and senior classes, but also applies to the sophomore class. The university has also broken all records of percentage of enrollment from the state of Vermont, there being seven more Vermonters than ever before in the history of the institution.

President Reeves left for Washington Saturday evening to confer with the officials of the war department on the matter of the reserve officers' training corps. The war department has promised that Norwich university shall be a training school for cavalry officers, and it is the details for these arrangements which are to be attended to on this trip. He will also have conference with the militia bureau in regard to National Guard affairs of the state, with particular reference to the first regiment of infantry.

The museum of Norwich university will profit considerably through the services of the members of the university on the border. Among other things which were picked up by cadets, officers and friends in the United States service is a collection of Carranza and Villa money, some fine specimens of petrified woods, rare species of cactus, etc. A petrified stump weighing 900 pounds will be set up on the upper parade and will bear a bronze tablet showing that it was presented by Norwich men on the border to the university in honor of those who were out in the federal service under the president's call for the mobilization of the National Guard. In this call 60 per cent. of the cadet body were actually enrolled and in actual service of the United States under call of the president. No other college in the United States has made this showing. In addition to the 60 per cent., there were quite a number of others who were turned down because of physical disability or were under 18 years of age. Had all who offered their services been accepted, the percentage would have run over 70.
